What we do

Private Wealth. It's personal.

Besides excellent customer service the Portal [Ogier Connect] sets Ogier Global apart from the rest.

Client feedback

Working with the team of experienced lawyers at Ogier we offer a one stop solution, helping establish and govern structures so that individuals and families are able to hold assets safely.

We strive to deliver personal, professional and discreet services offering our time, our expertise and our considerable collective experience to provide complete peace of mind.

We work with people whose life and/or assets span multiple jurisdictions, who need help managing those touch points and discharging their responsibilities. Our clients may be an individual, a family, or an office established for an individual or family.

We are known for our innovations in technology, including in both physical and cyber security. We use technology to simplify our lives, and to develop our approach to client service. This led to Ogier Connect which is our portal to your world.

Our roots are in working alongside families on a long term basis, and we often work closely with independent professionals from other industries to ensure the goals of our clients are achieved safely, efficiently and on time.

We are totally independent, with no links to any bank, investment or foreign exchange provider, nor do we generate income from these types of activity. We are only ever paid directly by our clients.

Our experience in different aspects of finance, from fiduciary experts and lawyers to investment practitioners and board directors brings strength in depth to private wealth structures. In addition, our experience and network offers access to most jurisdictions.

Our clients have a multitude of different backgrounds and approaches. But what they do have in common is their need to know that assets entrusted to our responsibility are safe, secure and well cared for. Ogier Global provides this peace of mind by taking time to fully understand each unique situation, ensuring that all responsibilities are fully discharged.
