Who we are

When disputes arise in our jurisdictions, they are often complex, international and high value.

Ogier has one of the largest teams across our jurisdictions, advising on technical, strategic and procedural aspects across the spectrum of contentious commercial issues and disputes.

We advise on six international laws: BVI, Cayman Islands, Guernsey, Irish, Jersey and Luxembourg.

The team's experience spans cross-border, multi-million and multi-billion dollar disputes across Europe, the Middle East, Asia and the US. We resolve disputes in negotiation, mediation, arbitration and in court.

With a pedigree in local and cross-border trust dispute resolution, Ogier counts a large number of the leading institutional and independent fiduciary businesses among its clients.

We work closely with onshore counsel and other professional services providers in connection with foreign regimes.

Ogier has excellent relationships with the regulators in the BVI, Cayman, Guernsey, Ireland and Jersey.

Using dispute resolution to manage risk and prevent disputes has become a valuable tool for our clients, who include the world's leading financial institutions, independent professional advisers, international accountancy practices and global law firms. We also act for many of the world's most wealthy families and high net worth individuals.

Ogier's Restructuring and Insolvency team offers legal advice to banks, financial intermediaries and corporates, as well as onshore counsel and other professional services providers in connection with company structures.

We seek the best outcome for every client. Preempting formal proceedings and resolving disputes quickly, fairly and cost effectively is key to the efficient operation of a business. In the interests of providing excellent client service, preserving relationships is very important to us.

Ogier's disputes team is the best in the market, they have an outstanding reputation, and a reputation for strong results, strategic and commercial thinking, and are exceptional in court. Legal 500 UK: Jersey, 2025

How we do it

Many techniques have been developed to identify and resolve risks and disputes, each with its own advantages and disadvantages. Knowing which should be applied and how procedures differ in each jurisdiction can help to minimise costs, save time and keep businesses and transactions on track.

Where possible we take steps to avoid formal legal proceedings but when that is not possible our lawyers are perfectly placed to represent clients in any dispute resolution procedure.

Techniques include:

- negotiated settlements
- litigation
- mediation
- arbitration
- dispute boards
- early neutral evaluation (**ENE**)
- expert determination

There are often significant differences in procedures and practices in different jurisdictions and procedural rules may differ from one country to another. The merits of each dispute resolution method should therefore be considered in the light of the specific factual and jurisdictional circumstances.

Ocean Rig

Ogier's Cayman Islands team advised on the restructuring of Ocean Rig.

Ocean Rig is an international contractor of offshore deepwater drilling services and this case is the largest known contentious restructuring in Cayman Island's history.

Cayman dispute resolution partner Rachael Reynolds led the Ogier team advising on the restructuring of Ocean Rig - the Cayman Islands' largest ever successful restructuring.

The Ocean Rig companies were placed into provisional liquidation in March 2017 for the purposes of effecting schemes of arrangement. The restructuring became effective on 22 September 2017, within 6 months of the appointment of the JPLs, and resulted in an exchange by creditors of approximately \$3.7 billion of debt for new equity in UDW, approximately \$288 million in cash and \$450 million of new secured debt.

The case is a leading example of how the Cayman Islands "light touch restructuring" tool

can be used to achieve successful restructurings of complex and cross-border financing arrangements.

We acted for the joint provisional liquidators of the four companies, who are overseeing the restructuring and promoting the schemes of arrangement, and advised on all aspects of the matter.

The case involved a number of contentious elements including class composition and fairness issues.

Rachael appeared as lead advocate on behalf of the provisional liquidators in the Cayman Grand Court and provided expert evidence for the Chapter 15 recognition application.

Restructuring and Insolvency

Ogier's team handles challenging domestic and cross-border assignments. Our Restructuring and Insolvency team covers multiple jurisdictions and includes lawyers who specialise in a range of legal disciplines including corporate, finance, litigation and arbitration. We advise banks, financial intermediaries and corporates, and have extensive international experience advising on contentious and non-contentious offshore restructuring and insolvency matters. We have particular expertise in disputes involving the PRC and the Middle East. We often advise in conjunction with onshore counsel and other professional services providers in connection with company structures.

Ogier has excellent relationships with regulators in each of BVI, Cayman, Guernsey and Jersey. We are the only legal services provider advising clients on restructuring and insolvency matters across these offshore jurisdictions and onshore in Ireland and Luxembourg for non-contentious matters.

Trusts Advisory Group

Ogier's Trusts Advisory Group draws together experts from different disciplines and locations enabling us to provide a seamless contentious and non-contentious advisory service which also includes relevant corporate support.

Our Private Wealth team advises trustees, private banks and ultra-high net worth clients on the life cycle of trusts from establishment, restructuring and administration to succession planning. We have in-depth knowledge of trusts and foundations, enabling us to provide flexible and practical guidance on choosing the most effective

jurisdiction. The team combines with our corporate specialists to provide commercially focused corporate advice regarding companies that underlie trust structures or on new investments structures as they arise.

Drawing together our contentions and non-contentious trust practitioners, our Dispute Resolution specialists have a strong track record in dealing with contentious issues. Ogier has acted successfully in many of the headline international trust and private client matters in recent years in BVI, Cayman, Guernsey and Jersey.

Regulatory

Nearly a decade after the financial crisis the regulatory environment is increasingly complex and often challenging for regulated businesses. In our home jurisdictions we operate within sound regulatory frameworks and have longstanding and professional relationships with industry regulators in the BVI, Cayman Islands, Guernsey, Ireland, Jersey and Luxembourg.

Our multi-disciplinary team can help navigate these. Increasingly regulated environments through each stage in the business life cycle: start up and relocation, operation, expansion and change.

Prevention of issues is preferable but where things have gone wrong, we provide effective solutions to clients including banks, major corporates, investment managers, fund administrators, trust companies and private clients.
